

**List of papers appearing in the “Japanese Journal of Research in Family Nursing”  
(updated July 2020)**

<p><b>Vol.25 , No.1,2</b></p>	
<p><b>Vol. 24, No. 2</b></p>	<p>Takatani, S., Honda, J., Hohashi, N. (2019). Components of family concordance as involves the family system unit and medical professional: Content analysis of semi-structured interviews with families with a patient having chronic illness. <i>Japanese Journal of Research in Family Nursing</i>, 24(2), 142-155.</p> <p>Kiryu, I., Sato, Y. (2019). Does receiving health guidance concerning lifestyle-related disease prevention affect the health of the participant’s family?. <i>Japanese Journal of Research in Family Nursing</i>, 24(2), 156-163.</p> <p>Matsueda, K., Kikuchi, R., Yamazaki, A. (2019). Actual condition of family communication during the one-month postpartum and mother’s child-rearing difficulties related factor. <i>Japanese Journal of Research in Family Nursing</i>, 24(2), 164-173.</p> <p>Yoneda, A., Nakayama, M. (2019). Family coping in family with male patients of maturity-onset cerebrovascular disease in acute phase. <i>Japanese Journal of Research in Family Nursing</i>, 24(2), 174-184.</p> <p>Suzuki, S., Oshiro, R., Kobayashi, A., Kamibeppu, K. (2019). Nursing support for family decision-making regarding treatment for a neonate with a life-threatening condition. <i>Japanese Journal of Research in Family Nursing</i>, 24(2), 185-196.</p> <p>Saito, S., Wakimizu, R. (2019). A review of Japanese literature related to the psychological impact that affect parents who experience lost their child in the neonatal intensive care unit (NICU) and their medical professionals. <i>J Japanese Journal of Research in Family Nursing</i>, 24(2), 197-205.</p> <p>Fushimi, M., Yamazaki, T. (2019). Synthesis of family members’ experience of losing a cancer patient in qualitative studies in Japan. <i>Japanese Journal of Research in Family Nursing</i>, 24(2), 206-217.</p>
<p><b>Vol. 24, No. 1</b></p>	<p>Nagata, T., Irie, Y., Tagawa, K. (2018). A meta-synthesis of qualitative research into the aspect of difficulties of critical nursing care of family members. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 3-13.</p> <p>Hiratani, Y., Hohashi, N., Ichiki, M., Yamamoto, S., Matsuoka, A. (2018). Family intervention desired from nurses by families with a child hospitalized by illness. <i>Japanese Journal of Research in Family Nursing</i>, 24(1) 14-25.</p> <p>Tsunekuni, Y., Matsumoto, K. (2018). The meaning of ‘assertion’ for mothers of children/persons with severe motor and intellectual disabilities at home from school-age to young adulthood. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 26-40.</p> <p>Hagita, M. (2018). Experience of wives living with laryngectomy patient husbands who have lost the voice function. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 41-50.</p> <p>Kubokawa, M., Kondou, Y. (2018). Family cognition of the process of transitioning from the terminal phase of life to death in elderly relatives without cancer: Based on interviews with primary caregivers intending to provide end-of-life care at home. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 51-61.</p> <p>Maruyama, A., Fukuzawa, R., Otomo, E., Kamibeppu, K. (2018). Temporal perspectives of mothers regarding their babies prenatally diagnosed with congenital heart defects: Evolution and turning points on meanings of “normalcy”. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 62-73.</p> <p>Saito, M., Honma, E., Naito, M., Tanabe, S., Sato, T., Kobayashi, R. (2018). The psychological process which led persons in a situation of hikikomori to take first step from its situation to approach support organization and family support. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 74-85.</p> <p>Honma, E., Saito, M., Naito, M., Makabe, A., Tanabe, S., Kobayashi, R., Sato, T. (2018). Correlations between the effects of self-help groups on parents and children’s social withdrawal (hikikomori). <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 86-97.</p> <p>Fujii, M., Kobayashi, K., Inoue, R. (2018). Case study of coping with stress in spouse of patient with juvenile pancreatic cancer who participated in clinical trials. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 98-108.</p> <p>Iwabuchi, N., Hohashi, N., Honda, J., Nishimoto, Y., Ishigaki, K. (2018). Beliefs of family/family members that may affect decision making of hospital discharge of children with chronic disease: Based on analyses of literature and semi-structured interviews with nurses and families. <i>Japanese Journal of Research in Family Nursing</i>, 24(1), 109-122.</p>
<p><b>Vol. 23, No. 2</b></p>	<p>Doi, S., Hamada, Y., Fujita, A. (2018). Experiences of parents with long-term hospitalized children in neonatal care units: Using Leininger’s ethnonursing method. <i>Japanese Journal of Research in Family Nursing</i>, 23(2), 116-127.</p> <p>Seki, M., Hasegawa, M., Deguchi, Y. (2018). Affecting factors for child-rearing attitude of the child with</p>

	<p>disabilities's mother. <i>Japanese Journal of Research in Family Nursing</i>, 23(2), 128-139.</p> <p>Isoyama, A. (2018). Change in consciousness in two-children concurrent-care mothers during secundigravida to one month postpartum. <i>Japanese Journal of Research in Family Nursing</i>, 23(2), 140-147.</p> <p>Fujiwara, M., Nakayama, M. (2018). Supporting proxy decision-making of family member for life-prolonging treatment: A case of family members supporting long-term home care. <i>Japanese Journal of Research in Family Nursing</i>, 23(2), 148-159.</p> <p>Nagayama, M., Nomaguchi, C., Kusaba, H. (2018). The maintenance style and related factors of maternal care provided by mothers raising children with disabilities. <i>Japanese Journal of Research in Family Nursing</i>, 23(2), 160-171.</p>
<b>Vol. 23, No. 1</b>	<p>Hiratani, Y., Hohashi, N. (2017). Comparative research in the family functioning of families with a hospitalized child and families with children in the same locale. <i>Japanese Journal of Research in Family Nursing</i>, 23(1), 2-14.</p> <p>Wada, E. (2017). The source of family caregivers to continue home care. <i>Japanese Journal of Research in Family Nursing</i>, 23(1), 15-25.</p> <p>Katsuda, H. (2017). The Structure of experiences of facing voiding problems in children with elimination disorders and their parents. <i>Japanese Journal of Research in Family Nursing</i>, 23(1), 26-38.</p> <p>Karikawa, M. (2017). Study of end-of-life care experiences and the meanings of those experiences as perceived by the spouse after the death of a cancer patient who was cared for at home. <i>Japanese Journal of Research in Family Nursing</i>, 23(1), 39-51.</p> <p>Iwato, S., Ikeda, M., Yoshida, S., Yoshioka, H., Yamamoto-Mitani, N. (2017).
